

Involvement Northwest Quality Policy

Establishing & Communicating

Involvement Northwest's corporate policies act as a compass by providing the direction and framework for establishing key business performance measures, as well as related objectives and targets. Senior management ensures that our corporate policies are established and documented, and that the policies are available to all interested parties via our website.

Senior management have overall responsibility for defining, documenting, implementing and reviewing our policies in consultation with our management teams and other staff. The policies are reviewed at least annually, as part of the formal management review programme or at a frequency determined by:

1. The changing needs and expectations of relevant interested parties;
2. The risks and opportunities that are presented through the risk management process

Our corporate policies are communicated to all employees at all levels throughout our organisation via our central HR system, training, regular internal communications and reinforcement during annual company away days and any performance review. Staffs understanding of our policies and objectives is determined during internal audits and other methods deemed appropriate.
